

gowatch.ca (live) event live streaming

live wedding celebrations

What to expect with gowatch.ca

You have made the decision to tie the knot. Congratulations. But how do you share your day with those you love and are close to you both. Virtual events are the future and trusting your event with a professional is the best way to ensure a successful stream.

We will take care of all the technical needs from your virtual wedding ceremony experience. We will make the virtual experience simple for all to login and enjoy live. Broadcasting in HD and recording in 4K with multiple cameras, multiple discreet microphones along with chat features will ensure we capture the moments live. All speakers will have their own individual microphone mix that will not interfere with video photographers. Our pro equipment is wireless and portable similar to what you would see in a TV studio.

What is included with gowatch.ca

- A professional consultant that will work with you to explain the process.
- Pro web-casting equipment including multiple cameras, up to 5 microphones for multiple speakers
- Broadcast to our channel from our site. The login is simplified for your guests. Phone backup is also available for guests.
- Integrated Picture in Picture on screen along with your custom monogram.
- Chat feature available for those to wish you all the best.
- Video of your guests arriving and being seated, the ceremony and the newly married couple interview.
- Archived storage of your video online. You can request it be locked out and require a password.
- Upload of the 4K version afterwards. This is an uninterrupted version that will not have any buffering.
- Downloadable version for you in whatever format you wish.
